For others it is probably very good to try to get an evaluation copy of SPSS Modeler from Adobe. A version that has been reviewed can be get from the Adobe site. I always have a crack install of the program on my laptop and use it for my private consulting. It is a personal choice. In the past I have had to get a copy from Intergraph in addition to the evaluation copy. Are you saying that Autodesk has plans to release a trial version of 3ds Max for 2017 to those that purchased 3ds Max 2016, and later 2016-2016 Update, 2017, and later 2017 and later 2015? So far I've seen no mention of this. Yes. For sure there will be a free trial version of 3ds Max 2017. It will ship with Autodesk Fusion 360 (works with Sketchup Pro and Revit) and when you open up you'll see an option for Fusion 360 as well. The problem with that is that its a perpetual license of 3DS Max only and you can never own 3DS Max. You are locked in. If you sign up for 3ds Max at least you get Autodesk's audio tools for free and that is a good start. You don't get Maya any more. I also read the whole exchange between you and TheTrine and enjoyed it! I also commented. Yes, my father used to work for Intergraph Software during that time and he knows from experience that Intergraph had in general a poor support for 3ds Max and that they didn't support the upgrade to Version 2016.
