Tipard iPad Converter Suite Crack Free Download is a collection of freeware apps that cover all the necessities of the iPad tablet owners. It offers them a chance to convert videos from all formats, rip DVDs, as well as transfer files between PC and iPad. The DVD to iPad Converter and the iPad Video Converter are very useful and easy to use, providing users with simple, intuitive and easy-to-use interfaces. The DVD to iPad Converter supports a wide range of video formats, allowing them to rip DVD videos and convert them to iPad-compatible formats. It includes the option to add watermarks to them, as well as apply various effects to the video before conversion. Users can even import a DVD's menu to them, helping them to easily navigate the DVD disc. The iPad Video Converter allows iPad users to convert any video file to iPad-compatible formats, without having to use third-party editing software. It can be used to convert any media to MPEG-4, H.264, MP3, and MOV file formats, as well as save the output video in M4V format. The app has a very simple and intuitive interface, and offers the user a chance to simply click a button and have a video ready to be played on the iPad. The iPad Video Converter also supports several video filters and transitions, allowing users to fine-tune the output video to their liking. The iPad to PC Transfer tool is ideal for iPad users who are not willing to buy iTunes and copy movies to their device manually. The program will help users easily copy all the movies on their PC to the iPad, as well as the other way around. It also supports the most popular iPad-compatible formats, so they can be easily transferred to the mobile device. However, the application is not available for Windows XP and Windows Vista, so users of these operating systems can use alternative software to perform the transfer.
